| Material Data Sheet | Code        | V75B      | Issue 2, Revision 3 | ORING |
|                     | Designation | FKM / FPM | July 2005           |       |

MATERIAL TYPE: Fluoroelastomer Rubber, 66-75 °IRHD.

Copolymer of vinylidene fluoride and hexafluoropropylene. To meet ASTM D2000 line call-out:-M2HK710, A1-10, B37, B38, EF31, EO78, F14, Z1, where Z1 = compression set 30% max.

APPLICATION: Excellent resistance to oils, fuels and hydraulic fluids at high temperature.

| TEMPERATURE RANGE: | Maximum operating temperature +200°C (392°F). |
|--------------------|---|
|                    | Minimum operating temperature -20°C (-4°F).   |

SHELF LIFE CLASSIFICATIONS:BS4F68 = Group X, Indefinite StorageISO2230 = Group C, Initial Storage = 10 years, Extension Storage Periods = 5 years

**COSHH HEALTH AND SAFETY DATA:** No known hazard exists if used in accordance with the temperature range as quoted.

**FIRE HAZARD:** Ignition temperature >315°C (599°F). Thermal decomposition will generate; hydrogen fluoride, fluorinated hydrocarbons, carbon monoxide and carbonyl fluoride. In the event of fire, fire-fighters must wear self-contained breathing apparatus and a protective suit. Extinguish with water, foam, carbon dioxide or dry chemical. Neutralise any refuse from a fire involving fluoroelastomer with calcium hydroxide solution and wear Neoprene<sup>®</sup> gloves before handling.

**DISPOSAL:** Must conform to national, state and/or local regulations. Landfill is recommended. Burning is not recommended, unless conducted by an approved/licensed incineration agency.

**SPECIAL NOTE:** This information is to the best of our knowledge accurate to the date indicated. However, PPE make no warranty, expressed or implied, that parts manufactured from this material will perform satisfactorily in the customer's application. It is the customer's responsibility to evaluate parts prior to use, especially in applications where their failure may result in injury and/or damage. It should also be noted that all elastomeric parts have a finite life, therefore a regular program of inspection and replacement is strongly recommended.
